PROFILE

Full stack developer and community support specialist at 4Geeks Academy, where I mentor programming students as a senior mentor. I publish open source with measurable tests and coverage, and I automate workflows with AI and agents. Before coding I spent years in sales and customer service and studied Medicine: I listen, find the real problem and explain it clearly, in Spanish and English.

EXPERIENCE

Community & Public Support Specialist · Senior Mentor May 2026 – Present
4Geeks Academy · Remote · Part time

- Support students in the Full Stack program: I answer technical and community questions.
- Technical mentoring: I help students with debugging, good practices and Git and GitHub workflows.
- I review student projects and give feedback.

Customer Service Apr 2026 – Present
DocsiApp · Weekends (Sat. & Sun.)

- Customer service on Saturdays and Sundays.

Community Specialist Oct 2025 – May 2026
4Geeks Academy · Remote · Part time

- Managed the digital community and supported students in the Full Stack program.

Developer · Freelance Oct 2021 – Present
Remote

- Websites and web apps with React, Node.js, Python and PHP/Laravel, from design to deployment.
- Six industry demo landing pages (barbershop, delivery, sports, hardware, florist, taxi) published on Vercel.

Sales Manager 2015 – 2017
Iltuocarro · Venezuela

- Led commercial operations and team performance; negotiated with clients and suppliers.

Sales & Customer Service 2005 – 2014
Family business · Punto Fijo

- From operational roles to management: conflict resolution, customer advice and inventory control.

OPEN SOURCE

apis-gratis-es — Verified catalog of 23 free APIs for the Spanish-speaking community, with 5 live demos and 342 tests.

mcp-readiness-check — TypeScript tool to diagnose MCP servers: 94 tests and 94% coverage.

openclaw-skills — 37 skills for OpenClaw with the origin of each one recorded; 15 verified byte for byte against ClawHub.

Accepted contributions — pythiaLabs (6 PRs), DevSwitch and icon-sprite.
